

For Immediate Release

Delta Electronics Inc. Announces Deal with Delta Electronics (Thailand) Public Company Limited

Taipei, Taiwan, February 14, 2017. – Delta Electronics, Inc. (later referred to as “DEI”), announced today the board of directors of its subsidiary Delta Electronics (Netherlands) BV (later referred to as “DEN”) has agreed to a deal in which it shall obtain stakes in four overseas subsidiaries owned by Delta Electronics (Thailand) Public Company Limited (later referred to as “Delta Thailand”), an associate of DEI. This deal shall allow DEI to strengthen its sales and marketing platform for its power systems business in the EMEA (Europe, Middle East and Africa) and the Americas regions.

The agreement includes the purchase of 51% stake in Delta Energy Systems (Switzerland) AG and Delta Greentech Electronics Industry LLC as well as the acquisition of 100% shares in Delta Greentech (USA) Corporation and Delta Greentech (Brasil) SA. The total value of these acquisitions is USD24.85 million. The agreement also includes the sale of DEN’s 100% stake in Eltek s.r.o. (later referred to as “Eltek SK”), valued at USD22 million, to Delta Greentech (Netherlands) BV, entity owned by DEI. It is expected that these transactions shall be completed before the end of 2017-Q1.

The aforementioned entities to be purchased by DEN are primarily focused on the trading of power systems in EMEA and the Americas, thus, allowing DEI to sharpen its focus on enhancing the sales and marketing platforms of its power systems business in such regions. The decision to sell Eltek SK, entity engaged in the manufacturing of telecom power systems in Slovakia, derives from that same strategic plan.

About Delta

Delta, founded in 1971, is a global leader in power and thermal management solutions and a major player in several product segments such as industrial automation, displays, and networking. Its mission statement, “To provide innovative, clean and energy-efficient solutions for a better tomorrow,” focuses on addressing key environmental issues such as global climate change. As an energy-saving solutions provider with core competencies in power electronics and innovative research and development, Delta’s business domains include Power Electronics, Energy Management, and Smart Green Life. Delta has 153 sales offices, 61 R&D centers and 40 manufacturing facilities worldwide.

Throughout its history, Delta has received many global awards and recognition for its business achievements, innovative technologies and dedication to corporate social responsibility. Since 2011, Delta has been selected as a member of the Dow Jones Sustainability™ World Index (DJSI World) for 6 consecutive years. In 2016, Delta was selected out of 5,800 large companies by CDP (formerly the Carbon Disclosure Project) for its Climate Change Leadership Level.
