

POWER ENTRY MODULES

SCREW & SNAP-IN MOUNTING

INTRODUCTIONS

- Designed to meet globally accepted IEC publication 320 Class 1, that allows users to comply with industry standards in power entry requirement.
- 2. Connector for cold condition, with pin temperature 70°C max.
- 3. Nickel-plated brass pins and soldering terminals.
- 4. Screw-on mount from front or rear (with screw type-M3).
- Power module incorporates an IEC connector, double fuse holder, voltage selector, double-pole power switch, all-in-one easy-to-install unit.
- Double-fuse holder designed for two fuses, single fuse & dual fuse capability are both available (all 5x20mm fuses).
- Adapts to 110-120V or 220-240V input voltage simply by reversing the voltage selector card.
- Compact design and high volume production provide maximum flexibility and significant savings in space and cost over assembly of individual components.
- 9. All part numbers are UL, CSA and SEMKO approved.
- SK-1027/SK-1028 with a variety of built-in filter are also available, see Delta EMI filter catalog for SB/NB series.

SPECIFICATIONS

- 1. Rated voltage: 250VAC
- 2. Minimum insulation resistance at 500VDC: 10M OHM
- 3. Dielectric strength (one minute): 2000VAC between pins
- 4. Flammability class: UL 94V-0
