

DC-DC Converters

For powering 24 V systems in industrial electric vehicles **MOOV**^{on}

Datasheet

Features

- CE mark and UL recognised
- Ingress Protection: IP69K water / dust proof
- Compliant to salt spray standard EN 60068-2-11
- Wide input voltage range: 33.6 V_{DC} to 96 V_{DC}
- Output short circuit protection
- Operating temperature range: -35 °C to +85 °C

| DC Input (X1) | 48 V - 80 V 48 V - 80 V 600 W 400 W | | |
|---------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|--|
| Input voltage range | 33.6 V – 96 V | | |
| Extended operating range ¹ | 24 V - 33.6 V 96 V - 120 V | | |
| Maximum input current | 32 A | 22 A | |
| No load input current ² | < 60 mA | < 45 mA | |
| Inrush Pulse | < 1.5 A ² s | | |

| DC Output (X2) | 48 V - 80 V 600 W | 48 V - 80 V 400 W | | |
|--------------------------------------------|----------------------|----------------------|--|--|
| Output Power | 600 W | 400 W | | |
| Nominal output voltage | 24 | l V | | |
| Minimum output voltage ³ | 23 | 23 V | | |
| Maximum output current | 25 A | 16.7 A | | |
| Start-up time under full load ⁴ | < 500 ms | | | |
| Noise (peak to peak) | < 0.5 V | | | |
| Typical Efficiency ⁵ | 88% | 89% | | |
| Line regulation ⁶ | ±1% | | | |
| Line regulation (maximum) ⁷ | ±3% | | | |
| Load regulation | ±4% | | | |
| Load regulation response ⁸ | < 100 ms | | | |
| Step load regulation ⁹ | ±8% | | | |

1 For a maximum of 5 minutes at nominal output power

2 At nominal battery voltage

3 At input voltage range. When operating in the extended lower input range the minimum voltage is 20 V

- 4 Measured with a resistive load
- 5 For 50% to 100% load
- 6 At input voltage range
- 7 At extended input voltage range

8 Slew rate 1 A/ μ s

- 9 Load step: 10% \rightarrow 90%, 90% \rightarrow 10%
- 2

| Environmental conditions | | |
|------------------------------------|-----------------------------|-------------------------------------------------------------------|
| Test | In Accordance with standard | Test Details |
| Townseedows aboves | EN 00000 0 14 | Duration: 240 h and 20 cycles minimum. |
| Temperature change | EN 60068-2-14 | Cycle between -35 °C and 85 °C |
| | | Duration: 96h |
| Constant warm temperature | EN 60068-2-2 | Test temperature: 85 °C |
| | | Duration: 20 cycles |
| | | Operation mode: In operation |
| | | Test temperature: 85 °C |
| | | Test duration: 1 h fully tempered + 15 minutes |
| Temperature shock | EN 60068-2-14 | Transfer duration: < 5 s |
| | | Test medium: Water 0 °C, 5% dissolved salt content |
| | | Time under water: 5 minutes |
| | | Water volumes: At least 5 times the component volume |
| | | No water ingress |
| | | Max air temperature: 55 °C |
| | | Number of cycles: 6 |
| | | Operation mode: 1 h in operation 1 h without function |
| Humidity/Heat cyclic | EN 60068-2-30 | Air humidity: 93% |
| | | Cycles duration: 24 h |
| | | Temperature change ≥5 K/min |
| | | Minimum air temperature 25 °C |
| | | Load: 10 g |
| | EN 60068-2-6 | Frequency range: (10-500) Hz |
| Vibrations, sinusoidal | | Length of time subject to load: 3 axes, 9 hr (50 cycles) per axis |
| | | Form: sinusoidal |
| | | Operation mode: operational |
| | EN 60068-2-29 | Shock load: 10 g |
| Continuous shock | | Duration: 16 ms |
| | | Number of impacts: 10000 shocks |
| Shocks | | Shock load: 30 g |
| | EN 60068-2-27 | Duration: 6 ms |
| | | 3 shocks per direction, 6 directions |
| Salt spray | ISO 9227 (NSS) | 35 °C, 96 hours |
| | EN 60068-2-11 | |
| Ingress Protection | IP69K | Per ISO 20653 |
| Operating temperature ¹ | - | -35 °C to +85 °C (-22 °F to +185 °F) |
| Storage temperature | - | -40 °C to +85 °C (-40 °F to +185 °F) |

C NELTA 24 V DC-DC Converters

| Protection and Reliability | 48 V – 80 V 600 W | 48 V – 80 V 400 W | |
|----------------------------------|--------------------------------------------|----------------------|--|
| Over current protection | 29 A | 21 A | |
| Over temperature protection | Yes | | |
| Short circuit protection | Yes | | |
| No spark on contact ¹ | Yes | | |
| MTBF ² | 500,000 h | | |
| Insulation voltage | | | |
| DC Input - DC Output | 1.77kV _{AC} / 2.5kV _{DC} | | |
| DC Input – Housing | 1.77kV _{AC} / 2.5kV _{DC} | | |
| DC Output - Housing | 1.2kV _{AC} / 1.7kV _{DC} | | |

| Mechanical Data | 48 V – 80 V 600 W | 48 V – 80 V 400 W | |
|------------------------|-------------------------------------------|-------------------------------------------|--|
| Dimensions (W x H x D) | 115 x 71 x 203 mm (4.5 x 2.8 x 8 inch) | 115 x 61 x 203 mm (4.5 x 2.4 x 8 inch) | |
| Weight | 2.1 kg (4.63 lb) | 1.6 kg (3.53 lb) | |
| Case material | Aluminium | | |
| Cooling | Conduction via heatsinking | | |

| Approvals and Compliance | | |
|--------------------------|------------------------------------------|--|
| Safety marks | _c UR _{us} , CE, UKCA | |
| Safety ³ | IEC 62368-1 | |
| EMC ⁴ | EN 12895. CISPR 25/EN 55025 | |
| | EN 61000-4-2/3/4/5/6/8 | |

| Connector pin assignments | | | | |
|------------------------------------------------------------------------------------------------------------------------------|-----------|--------------|-----|--------------|
| | Connector | Input/output | Pin | Assignment |
| $\begin{array}{c} \hline - + \\ \hline 2 \\ \hline \\$ | X1 | Input | 1 | Positive (+) |
| | | | 2 | 0 V (GND) |
| | X2 | Output | 1 | 0 V (GND) |
| | | | 2 | Positive (+) |

| Example Mating Connectors ⁵ | |
|----------------------------------------|--------------|
| X1 | FEP 42122900 |
| X2 | FEP 42123400 |

1 At < 20% load

2 Telcordia SR-332 at 50 °C (122 °F)

3 Designed to allow industrial truck approval to UL 583 and EN 1175

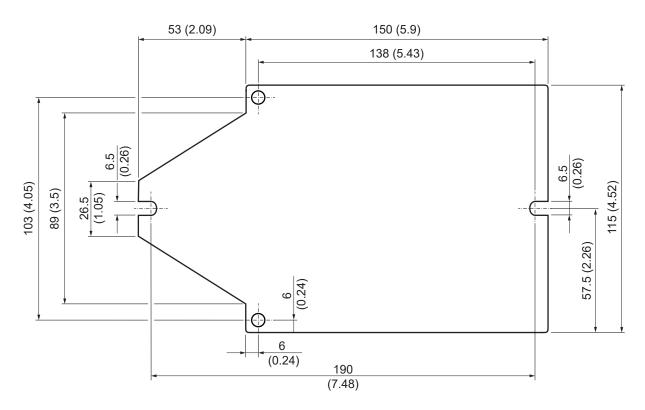

4 Additional external cable filtering (e.g. with ferrite cores) may be required depending on the EMC emission requirements of the end-use application. EMC suitability must be evaluated in the end-use application

5 It is the user's responsibility to select connector material based on the safety standard they are aiming to comply with.

A NELTA

Dimensional drawing

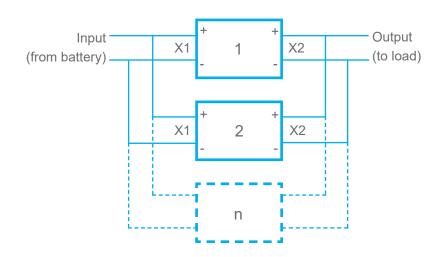

Dimensions in mm (inch)

Mounting instructions

Make sure to install the DC-DC converter on a metal cooling surface, whose temperature should not exceed +70 °C (+158 °F). Use the provided gap pad between the DC-DC converter and the metal cooling surface in order to maintain good thermal contact. This avoids the over heating of the DC-DC converter. Use M6 stainless steel screws with a minimum length of 12 mm and a maximum head diameter of 10.5 mm. The recommended torque is 4.6 Nm (40.7 in-lb). The correct torque should be established for each use case.

Parallel operation

At least two DC-C converters can be connected in parallel. It's important to ensure that output cable impedance, to a common junction point, is within 5% of each other. Current sharing suitability must be fully evaluated in the end-use application.
