

Environmental, Safety and Health Policies

Delta's corporate mission is "To provide innovative, clean and energy-efficient solutions for a better tomorrow" by continuously implementing world-class corporate social responsibility and sustainable development.

Delta's Commitments and Actions:

- **Regulatory compliance:** Delta complies with or surpasses both domestic and international environmental, safety, and health regulations and requirements, as well as actively responds to international initiatives and voluntary commitments.
- **Environmental protection and Energy Conservation:** Delta continuously promotes efficient use of energy and resources to reduce waste, prevent pollution and improve environmental performance.
- **Safety and Health Enhancement:** Delta identifies and manages environmental, safety and health risks to create a work environment that promotes personnel health and prevents occupational injuries and disease.
- **Product Responsibility:** Delta invests in green research and development to develop environmentally friendly products to conserve the planet's resources and alleviate the impact on the environment.
- **Collective Awareness Enhancement:** Delta encourages workers participation and awareness to help eliminate hazards and reduce environmental, safety, and health risks.
- **Internal and External Communication Strengthening:** Delta strengthens communication with stakeholders and with their participation, Delta continues to improve and advance the performance in the management of environmental, safety, and health.
