

Delta Earns ENERGY STAR® Partner of the Year Award for Second Consecutive Year

Delta Breez ventilation fans receive ongoing recognition for sustainable and innovative qualities

Fremont, Calif. — April 27, 2017 —Delta, a global leader in power and thermal management solutions, announced today its subsidiary Delta Products Corporation was named as 2017 ENERGY STAR® Partner of the Year – Product Brand Owner Award winner by the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy at an awards ceremony in Washington, D.C. on April 26. In 2017, only 143 winners were chosen from a vast network of 16,000 ENERGY STAR partners. This accolade recognizes Delta’s overall commitment to educating consumers about energy efficiency, as well as Delta’s contributions towards reducing greenhouse gas emissions through the superior sustainability of its Breez ventilation fans. In 2016, some of Delta’s ENERGY STAR qualified Breez ventilation fans exceed ENERGY STAR efficiency requirements by as much as 367 percent.

"Delta is dedicated to developing highly-efficient, quiet, safe, and smart ventilation fans that utilize our innovative fan, motor, power electronic and control technologies and industry knowledge. We pledge to continue delivering products that will protect the environment and minimize our society’s carbon footprint, in order to fulfill our company mission: To provide innovative, clean, and energy-efficient solutions for a better tomorrow," said Wilson Huang, General Manager of Fans and Thermal Management Business Group, Delta Electronic.

In 2016, Delta committed to using LED technology for all newly introduced fans that offer built-in lighting, and its ENERGY STAR-qualified fans achieved its lowest power consumption at 3.8W. Overall, most of Delta Breez ventilation fans have been recognized as ENERGY STAR qualified and eight were rated as ENERGY STAR Most Efficient 2016, leading to this year’s Product Brand Owner Award. Some of the ventilation fans are engineered to exceed ENERGY STAR efficiency requirements by as much as 367 percent.

Delta’s state-of-the-art fans create a comfortable, healthy environment for consumers. The key to a Delta Breez fan’s unmatched performance is the use of long-lasting brushless DC motors. With their various energy efficient features, Delta Breez fans use up to 74 percent less energy than competing ventilating fans with the same performance. Additionally, Delta Breez fans are known for being

extremely quiet and include cutting-edge features, such as Bluetooth® speakers, various sensor controls, and more.

About Delta Breez

Delta Breez is a line of residential ventilation fans with advanced engineering.

Using Delta's own brushless DC motor technology, Delta Breez fans are durable, energy efficient, and incredibly quiet. Quality and sustainability are core values of Delta, which is why Breez fans have earned the ENERGY STAR mark. In fact, most Breez models have been distinguished as ENERGY STAR's Most Efficient 2015. With noise levels as low as <0.3 sones and energy savings up to 74 percent better than traditional fans, Delta Breez is built with a commitment to excellence.

About Delta

Delta, founded in 1971, is a global leader in power and thermal management solutions and a major player in several product segments such as industrial automation, displays, and networking. Its mission statement, "To provide innovative, clean and energy-efficient solutions for a better tomorrow," focuses on addressing key environmental issues such as global climate change. As an energy-saving solutions provider with core competencies in power electronics and innovative research and development, Delta's business domains include Power Electronics, Automation, and Infrastructure. Delta has 153 sales offices, 61 R&D centers and 40 manufacturing facilities worldwide.

Throughout its history, Delta has received many global awards and recognition for its business achievements, innovative technologies and dedication to corporate social

responsibility. Since 2011, Delta has been selected as a member of the Dow Jones Sustainability™ World Index (DJSI World) for 6 consecutive years. In 2016, Delta was ranked by CDP (formerly the Carbon Disclosure Project) at the Climate Change Leadership Level.
